LabSmith Sponsors Electrokinetics and Microfluidics Workshop at LACE 2011

LIVERMORE, CA (November 11, 2011) – LabSmith, Inc., manufacturer of tools for science, will be providing equipment for a hands-on workshop in electrokinetics, electrophoresis and microfluidics at the LACE 2011 conference (the 17th Latin-American Symposium on Biotechnology, Biomedical, Biopharmaceutical and Industrial Applications of Capillary Electrophoresis and Microchip Technology), held at the Hollywood Beach Marriott, Hollywood, Florida, USA, Dec 2-6, 2011.

The pre-symposium workshop, which will be held Saturday, December 3 from 9:00 am to 1:00 pm at the Hollywood Beach Marriott, will be taught by Professor Blanca Lapizco-Encinas of Tennessee Technological University. The workshop will provide students with hands-on experience in electroosmotic flow, dielectrophoresis, particle imaging velocimetry, pressure-driven flow, programming electrokinetic injections and methods for visualizing microfluidics experiments.

For more information on LACE 2011 and a workshop outline visit <http://www.latince.com/> or http://labsmith.com/news/LabSmith_LACE_Microfluidic_Electrophoresis_Hands_On_Workshop.pdf

About LabSmith, Inc.

LabSmith, Inc. builds laboratory tools that further the art of research. LabSmith products control all aspects of experimentation, including timing, synchronization, high voltage and current sourcing, fluid routing and event capture and visualization. Visit www.labsmith.com.

###

LabSmith's components and equipment for microfluidics research will support a hands-on workshop at the LACE 2011 Conference, Saturday Dec 3 in Hollywood, Florida. A high resolution version of this image is enclosed.
